

Color Atlas and Synopsis of Clinical Ophthalmology -- Wills Eye Institute -- Glaucoma (Wills Eye Institute Atlas Series)

Filesize: 3.67 MB

Reviews

*These types of pdf is the greatest pdf readily available. I actually have study and that i am certain that i am going to going to go through again again later on. You wont sense monotony at at any moment of your own time (that's what catalogs are for relating to when you request me).
(Harold Macejkovic)*

Lippincott Williams&Wilki Mai 2012, 2012. Taschenbuch. Book Condition: Neu. 238x156x20 mm. Neuware - This text is part of the Color Atlas and Synopsis of Clinical Ophthalmology which was developed at Philadelphia's famed Wills Eye Institute. The beauty of this series is the powerful combination of illustrative photographs and a summary approach to the text. While the seven ophthalmic subspecialties in this series, Cornea, Retina, Glaucoma, Oculoplastics, Neuroophthalmology, Pediatrics, and Uveitis, employ varying levels of visual recognition, a relatively standard format for the text is used for all volumes. The goal of the series is to provide an up-to-date clinical overview of the major areas of ophthalmology for students, residents, and practitioners in all the healthcare professions. Glaucoma, Second Edition, is intended to provide comprehensive ophthalmologists, ophthalmology residents, and fellows with a single-volume, easily accessible resource covering all the major aspects of glaucoma. It will also be useful for subspecialists who are looking for an up-to-date, concise review of the field. The book features more than 525 full-color illustrations throughout and a short, succinct format which includes: Epidemiology and Etiology, History, Physical Examination, Differential Diagnosis, Laboratory and Special Examinations, Diagnosis, Prognosis, and Management. 445 pp. Englisch.
