

## Coevolution of Life on Hosts: Integrating Ecology and History

By Dale H. Clayton, Sarah E. Bush, Kevin P. Johnson

The University of Chicago Press. Paperback. Book Condition: new. BRAND NEW, Coevolution of Life on Hosts: Integrating Ecology and History, Dale H. Clayton, Sarah E. Bush, Kevin P. Johnson, For most, the mere mention of lice forces an immediate hand to the head and recollection of childhood experiences with nits, medicated shampoos, and traumatic haircuts. But for a certain breed of biologist, lice make for fascinating scientific fodder, especially enlightening in the study of coevolution. In this book, three leading experts on host-parasite relationships demonstrate how the stunning coevolution that occurs between such species in microevolutionary, or ecological, time generates clear footprints in macroevolutionary, or historical, time. By integrating these scales, Coevolution of Life on Hosts offers a comprehensive understanding of the influence of coevolution on the diversity of all life. Following an introduction to coevolutionary concepts, the authors combine experimental and comparative host-parasite approaches for testing coevolutionary hypotheses to explore the influence of ecological interactions and coadaptation on patterns of diversification and codiversification among interacting species. Ectoparasites-a diverse assemblage of organisms that ranges from herbivorous insects on plants, to monogenean flatworms on fish, and feather lice on birds-are powerful models for the study of coevolution because they are easy...

### Reviews

*This is the finest book i have got study right up until now. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Keanu Johns**

*This is the finest book i have read until now. It is filled with wisdom and knowledge You can expect to like just how the author compose this ebook.*
