DOMINION FROM SEA TO SEA: PACIFIC ASCENDANCY AND AMERICAN POWER

Yale. 1 Paperback(s), 2009. soft. Book Condition: New. (One of the Atlantic's Best Books of 2009) Bordering on the world's two greatest oceans gives America a competitive advantage that is often overlooked by historians focused primarily on our Atlantic heritage and our relationship with Europe. Historian Bruce Cumings also the author of *The Origins of the Korean War* challenges this perspective, arguing for a bicoastal approach to American history that properly emphasizes our connection to Asia as well as to Europe. "The story of America's rapid unrolling of the exceptionalist carpet is very well told by Mr. Cumings. A lively rattlebag of a history of the Pacific slope and how the Pacific Ocean came to be an American Lake." *Economist* (London) "Describing in colorful detail developments in the Western states, including Texas, as well as the countries of East Asia, the author argues that these developments have been inseparable from the story of U.S. 'dominion from sea to sea,' or its overwhelming military presence in 'the global archipelago.' The book fits into an emerging scholarly trend, to transcend narrowly focused national narratives and to deal with larger entities and in large frameworks such as Atlantic history, Europeanization, South Asian cosmopolitanism that have already enriched our understanding of modern global history. Few historians are as capable as Cumings of launching the field of Pacific history, and readers will find in this imaginatively conceived and earnestly but also humorously presented history much that will help them understand how the United States became globalized domestically and internationally, and what the future holds both for the nation and for the world." Akira Iriye 641.
