CCPN Global, United States, 2015. Paperback. Book Condition: New. 244 x 170 mm. Language: English . Brand New Book ***** Print on Demand *****.Journal of China in Comparative Perspective (JCCP ISSN 2040-0837) is the only peer-reviewed academic dual language journal for social scientific, humanities and comparative studies of China in the world, published biannually in June and December in print and electronic versions by the Global China Press from 2015. JCCP encourages contributors to put the material about China into comparative perspective in JCCP as far as they can. JCCP will not be simply about China (there are already a large amount of excellent China journals). It will be about looking at China from a comparative viewpoint as a player in broader patterns of development, ideas, movements, networks, and systems. Comparison includes using China as a case study to examine a generally applicable theory, or drawing analytic conclusions from comparative data about China and some other country or context. The comparison may be regional or global, historical or contemporary, and it may involve a comparison of perceptions, China's perceptions of others and others' perceptions of China in the context of China's encounter with the outside world in the political, economic, military, and cultural sense. JCCP publishes original multidisciplinary and interdisciplinary comparative research on China on a wide range of topics within the social and human sciences. It encourages debate, cooperation, or co-authorship on the same issue or theme from different disciplines (including politics, economics, international relations, history, sociology, anthropology, cultural psychology, methodology, among others). Its aim is to bring out the best in scholarship transcending traditional academic boundaries in an innovative manner.
